

# Product catalogue 2023

# First of all

Thank you for your interest in our products. Please note that you must comply with the corresponding instructions for use when selecting and utilizing the products listed in the catalog. You can access them online using the THM number printed on the label at: [www.ifu-tm.com](http://www.ifu-tm.com), at [www.thommenmedical.com/de/ueber-uns/download-center](http://www.thommenmedical.com/de/ueber-uns/download-center), or via the Thommen App (available free of charge for iOS and Android devices). Of course, your Thommen contact partners in our field sales force and back office teams are on hand to help you.

With the new webshop (available in selected markets), you can order our products intuitively, efficiently and with a good overview. Discover the Thommen Medical webshop at [www.shop.thommenmedical.com](http://www.shop.thommenmedical.com) and take advantage of more benefits.

The product configurator shows the components, which Thommen Medical recommend for an optimal restoration. Based on the previous configuration (tooth position, implant diameter, etc.) an article list corresponding with the required treatment method is proposed. This facilitates the selection of products and can be used as an additional and efficient aid along with the catalog. You can find the product configurator at: [www.thommenmedical.com](http://www.thommenmedical.com) or download the App directly in the Apple App Store or Google Play Store.

## Content

### **SURGICAL PF 3.5–6.0**

- 4 SPI®ELEMENT INICELL® cylindrical implant
- 5 SPI®CONTACT INICELL® conical-cylindrical implant
- 6 SPI®ELEMENT cylindrical implant
- 6 SPI®CONTACT conical-cylindrical implant
- 7 Surgical planning aids
- 8 Drills and depth gauges

### **THE THOMMEN 3.0 IMPLANT SYSTEM**

- 10 SPI®ELEMENT INICELL® PF 3.0 implant, VARIOunite abutment PF 3.0 and the related tool set

### **SOFT TISSUE MANAGEMENT**

- 14.15 Healing caps and gingiva formers  
overview – soft tissue management and temporary restoration

### **IMPRESSION TAKING/ANALOGS**

- 16 Impression taking at implant level
- 18 Scan abutment
- 19 Impression taking at abutment level
- 20 Implant analogs
- 21 Abutment analogs

## BIOMATERIALS

Country-specific product information on biomaterials can be found at:

Length

12.5 mm extra short

3.03.572

13.2 mm extra short

3.03.575

**Important** Thommen Medical provides the corresponding CAD libraries. You can find an overview at: [www.thommenmedical.com](http://www.thommenmedical.com).

**VARIOmulti**, scan abutment, titanium, 4-lobe

Height

8.0 mm

3.03.780

**VARIOmulti**, scan abutment, short, titanium, 4-lobe

Height

5.0 mm

3.03.781

No additional screws are necessary for the attachment of VARIOmulti scan abutments.

The VARIOmulti scan abutments should be used as follows.

- Laboratory scan: long scan abutment (3.03.780)
- Intraoral scan with neighboring teeth: long scan abutment (3.03.780)
- Intraoral scan without neighboring teeth: short scan abutment (3.03.781), as long as the laser marking projects above the gingiva.

# Impression taking at abutment level

|        |        |        |        |        |

| PF 3.5 | PF 4.0 | PF 4.5 | PF 5.0 | PF 6.0 |
|--------|--------|--------|--------|--------|

Thommen Medical offers impression copings for impression taking at abutment level for the EASY, VARIOmulti implant lines, as well as for the LOCATOR® and bar abutments. Temporary and protective caps are available for the temporary restoration of EASY and VARIOmulti abutments [see pages 38, 44, 46, 48].

## EASY impression coping, plastic

| Height  | Cone   |          |          |          |          |          |
|---------|--------|----------|----------|----------|----------|----------|
