                                                       | long 2.0 mm       | 4.0 mm | 6.0 mm  |
| long 2.0 mm       | 6.0 mm | 8.0 mm  |
| extra long 4.0 mm | 6.0 mm | 10.0 mm |

### EASY abutment 20°

| Collar           | Height |
|------------------|--------|
| 20° short 0.5 mm | 6.5 mm |
| 20° long 3.0 mm  | 9.0 mm |

### EASY abutment set

| Collar            | Cone   | Height  |
|-------------------|--------|---------|
| short 0.5 mm      | 4.0 mm | 4.5 mm  |
| short 0.5 mm      | 6.0 mm | 6.5 mm  |
| long 2.0 mm       | 4.0 mm | 6.0 mm  |
| long 2.0 mm       | 6.0 mm | 8.0 mm  |
| extra long 4.0 mm | 6.0 mm | 10.0 mm |

- Set contents:
- EASY abutment
  - abutment screw
  - EASY impression coping
  - EASY analog
  - EASY temporary cap
  - EASY burn-out cap, for crown, burn-out plastic
  - EASY burn-out cap, for bridge, burn-out plastic

## Burn-out cap

### EASY burn-out cap

| Height | Cone   |
|--------|--------|
| 4.7 mm | 4.0 mm |
| 6.7 mm | 6.0 mm |
| 4.7 mm | 4.0 mm |
| 6.7 mm | 6.0 mm |

## Analog

### EASY analog

| Cone   |
|--------|
| 4.0 mm |
| 6.0 mm |

### Implant analog

| Length  |
|---------|
| 22.0 mm |
| 14.0 mm |

### Implant analog for CAD/CAM

| Length  |
|---------|
| 11.4 mm |

### ART abutment set

| Abutment screw included |
|-------------------------|
| Cone                    |
| Height                  |
| 6.0 mm                  |
| 9.0 mm                  |

### ART grinding cylinder set

| Abutment screw included |
|-------------------------|
| Height                  |
| 12.0 mm                 |

### Dynamic Tibase®

| Abutment screw included |
|-------------------------|
| Height                  |
| 4.0 mm                  |
| 4.0 mm                  |

### Dynamic Tibase® customizable length

| Abutment screw included |
|-------------------------|
| Height                  |
| 9.0 mm                  |
| 9.0 mm                  |

### EASY burn-out cap

| Height     | Cone   |
|------------|--------|
| ART 6.7 mm | 6.0 mm |
| ART 6.7 mm | 6.0 mm |

### EASY analog

| Cone   |
|--------|
| 6.0 mm |

### Implant analog

| Length  |
|---------|
| 22.0 mm |
| 14.0 mm |

### VARIOflex set

| Abutment screw, burn-out cap included |
|---------------------------------------|
| Height                                |
| 12.0 mm                               |
| 12.0 mm                               |

### Titanium Base CAD/CAM set

| Abutment screw included |
|-------------------------|
| Height                  |
| 5.2 mm                  |
| 5.2 mm                  |

### Milling abutment for CAD/CAM Type II

| Abutment screw included |
|-------------------------|
| Length                  |
| 15.0 mm                 |
| 8.0 mm                  |

### VARIOeco burn-out cap

| Height  |
|---------|
| 12.0 mm |

### VARIOflex burn-out cap

| Height  |
|---------|
| 11.5 mm |

### Implant analog for CAD/CAM

| Length  |
|---------|
| 11.4 mm |

### VARIO abutment 17° set

| Height     | Shoulder height | Type A   |
|------------|-----------------|----------|
| 0° 5.6 mm  | 0.5 mm          | 1.03.160 |
| 30° 5.6 mm | 0.5 mm          | 1.03.180 |

- Set contents:
- VARIO abutment 17° (titanium)
  - VARIO 17° gold screw seat
  - occlusal screw
  - abutment screw

### VARIO gold abutment, NOA

| Height  | Cone   |
|---------|--------|
| 12.7 mm | 3.5 mm |
| 12.7 mm | 3.5 mm |

### VARIO 17° gold screw seat

| Height  | Ø      |
|---------|--------|
| 11.3 mm | 2.9 mm |

### Implant analog for CAD/CAM

| Length  |
|---------|
| 11.4 mm |

### Implant analog

| Length  |
|---------|
| 22.0 mm |
| 14.0 mm |

### VARIOmulti straight

| Height | Shoulder height |
|--------|-----------------|
| 3.0 mm | 0.8 mm          |
| 4.2 mm | 2.0 mm          |
| 5.2 mm | 3.0 mm          |

### VARIOmulti angled

| Angle | Height | Shoulder height |
|-------|--------|-----------------|
| 17°   | 4.3 mm | 2.7 mm          |
| 30°   | 4.4 mm | 3.3 mm          |

### VARIOmulti gold cap NOA

| Height      | Ø      |
|-------------|--------|
| 4.2/13.5 mm | 4.8 mm |

### VARIOmulti titanium base for CAD/CAM

| incl. occlusal screw |
|----------------------|
| Height               |
| 4.5 mm               |
| 4.8 mm               |

### VARIOmulti titanium base for CAD/CAM, customizable length

| incl. occlusal screw |
|----------------------|
| Height               |
| 9.0 mm               |
| 4.8 mm               |

### VARIOmulti burn-out cap

| Height  | Ø      | pcs. |
|---------|--------|------|
| 13.5 mm | 4.8 mm | 2    |

### VARIOmulti analog

| Height  | Ø      |
|---------|--------|
| 21.2 mm | 4.8 mm |

### VARIOmulti analog for CAD/CAM

| Height  | Ø      |
|---------|--------|
| 13.2 mm | 4.8 mm |

### LOCATOR® abutment

| Height  |
|---------|
| 0.73 mm |
| 2.0 mm  |
| 3.0 mm  |
| 4.0 mm  |
| 5.0 mm  |
| 6.0 mm  |

\*Only available in the US.

### RETAIN Milling abutment

| Height  |
|---------|
| 11.0 mm |

### Bar abutment

| Height |
|--------|
| 5.5 mm |

### Coping for bar

| Gold     |
|----------|
| 2.03.335 |
| Titanium |
| 4.03.070 |

### LOCATOR®

For components, see: [thommenmedical.com](http://thommenmedical.com) or product catalogue

### Bar analog

| Length  |
|---------|
| 21.5 mm |
| Ø       |
| 4.0 mm  |

### LOCATOR® analog

| Ø      | Pcs. |
|--------|------|
| 4.0 mm | 4    |
| 5.0 mm | 4    |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Temp. restoration ## Final restoration

### EASY abutment

| Collar            | Cone   | Height  |                 |
|-------------------|--------|---------|-----------------|
| short 0.5 mm      | 4.0 mm | 4.5 mm  | <b>4.03.702</b> |
| short 0.5 mm      | 6.0 mm | 6.5 mm  | <b>4.03.706</b> |
| long 2.0 mm       | 4.0 mm | 6.0 mm  | <b>4.03.712</b> |
| long 2.0 mm       | 6.0 mm | 8.0 mm  | <b>4.03.716</b> |
| extra long 4.0 mm | 6.0 mm | 10.0 mm | <b>4.03.736</b> |

### EASY abutment 20°

| Collar           | Height |                 |
|------------------|--------|-----------------|
| 20° short 0.5 mm | 6.5 mm | <b>4.03.011</b> |
| 20° long 3.0 mm  | 9.0 mm | <b>4.03.015</b> |

### EASY abutment set

| Collar            | Cone   | Height  |                 |
|-------------------|--------|---------|-----------------|
| short 0.5 mm      | 4.0 mm | 4.5 mm  | <b>1.04.702</b> |
| short 0.5 mm      | 6.0 mm | 6.5 mm  | <b>1.04.706</b> |
| long 2.0 mm       | 4.0 mm | 6.0 mm  | <b>1.04.712</b> |
| long 2.0 mm       | 6.0 mm | 8.0 mm  | <b>1.04.716</b> |
| extra long 4.0 mm | 6.0 mm | 10.0 mm | <b>1.04.736</b> |

- Set contents:
- EASY abutment
  - abutment screw
  - EASY impression coping
  - EASY analog
  - EASY temporary cap
  - EASY burn-out cap
  - for crown
  - EASY burn-out cap
  - for bridge

### EASY abutment e.p.

| Height | Cone   |                 |
|--------|--------|-----------------|
| 7.0 mm | 4.0 mm | <b>4.03.722</b> |
| 9.0 mm | 6.0 mm | <b>4.03.726</b> |

## Burn-out cap

### EASY burn-out cap

| Height           | Cone   |                  |
|------------------|--------|------------------|
| EASY 4.7 mm      | 4.0 mm | <b>2.03.722</b>  |
| EASY 6.7 mm      | 6.0 mm | <b>2.03.726</b>  |
| EASY 4.7 mm      | 4.0 mm | <b>2.03.732*</b> |
| EASY 6.7 mm      | 6.0 mm | <b>2.03.736*</b> |
| EASY e.p. 4.7 mm | 4.0 mm | <b>2.03.723</b>  |
| EASY e.p. 6.7 mm | 6.0 mm | <b>2.03.727</b>  |
| EASY e.p. 4.7 mm | 4.0 mm | <b>2.03.733*</b> |
| EASY e.p. 6.7 mm | 6.0 mm | <b>2.03.737*</b> |

## Analog

### EASY analog

| Cone             |                 |
|------------------|-----------------|
| EASY 4.0 mm      | <b>3.03.702</b> |
| EASY 6.0 mm      | <b>3.03.706</b> |
| EASY e.p. 4.0 mm | <b>3.03.703</b> |
| EASY e.p. 6.0 mm | <b>3.03.707</b> |

### Implant analog

| Length  |                 |
|---------|-----------------|
| 22.0 mm | <b>3.03.062</b> |
| 14.0 mm | <b>3.03.092</b> |

### Implant analog for CAD/CAM

| Length  |                 |
|---------|-----------------|
| 11.4 mm | <b>3.03.088</b> |

### ART abutment set

| Abutment screw included | Cone   | Height |                 |
|-------------------------|--------|--------|-----------------|
|                         | 6.0 mm | 9.0 mm | <b>1.03.626</b> |

### ART grinding cylinder set

| Abutment screw included | Height  |                 |
|-------------------------|---------|-----------------|
|                         | 12.0 mm | <b>1.03.652</b> |

### Dynamic Tibase®

| Abutment screw included | Height |                         |
|-------------------------|--------|-------------------------|
|                         | 4.0 mm | <b>31.314.116.01-2</b>  |
|                         | 4.0 mm | <b>31.324.116.01-2*</b> |

### Dynamic Tibase® customizable length

| Abutment screw included | Height |                         |
|-------------------------|--------|-------------------------|
|                         | 9.0 mm | <b>31.314.116.21-2</b>  |
|                         | 9.0 mm | <b>31.324.116.21-2*</b> |

### EASY burn-out cap

| Height     | Cone   |                  |
|------------|--------|------------------|
| ART 6.7 mm | 6.0 mm | <b>2.03.727</b>  |
| ART 6.7 mm | 6.0 mm | <b>2.03.737*</b> |

### EASY analog

| Cone       |                 |
|------------|-----------------|
| ART 6.0 mm | <b>3.03.707</b> |

### Implant analog

| Length  |                 |
|---------|-----------------|
| 22.0 mm | <b>3.03.062</b> |
| 14.0 mm | <b>3.03.092</b> |

### VARIOflex set

| Abutment screw, burn-out cap included | Height  |                  |
|---------------------------------------|---------|------------------|
|                                       | 12.0 mm | <b>1.04.833</b>  |
|                                       | 12.0 mm | <b>1.04.838*</b> |

### Titanium Base CAD/CAM Set

| Abutment screw included | Height |                  |
|-------------------------|--------|------------------|
|                         | 5.2 mm | <b>1.04.753</b>  |
|                         | 5.2 mm | <b>1.04.763*</b> |

### Milling abutment for CAD/CAM Type II

| Abutment screw included | Length  | Ø       |                 |
|-------------------------|---------|---------|-----------------|
|                         | 15.0 mm | 11.5 mm | <b>1.04.407</b> |

### VARIOeco burn-out cap

| Height  |                 |
|---------|-----------------|
| 12.0 mm | <b>2.03.793</b> |

### VARIOflex burn-out cap

| Height  |                 |
|---------|-----------------|
| 11.5 mm | <b>2.03.843</b> |

### Implant analog for CAD/CAM

| Length  |                 |
|---------|-----------------|
| 11.4 mm | <b>3.03.088</b> |

### VARIO abutment 17° set

| Height     | Shoulder height | Type A |                 |
|------------|-----------------|--------|-----------------|
| 0° 5.6 mm  | 0.5 mm          |        | <b>1.03.163</b> |
| Height     | Shoulder height | Type B |                 |
| 30° 5.6 mm | 0.5 mm          |        | <b>1.03.183</b> |

- Set contents:
- VARIO abutment 17° (titanium)
  - VARIO 17° gold screw seat
  - occlusal screw
  - abutment screw

### VARIO gold abutment, NOA

| Height  | Cone   |                  |
|---------|--------|------------------|
| 12.7 mm | 3.5 mm | <b>2.03.412</b>  |
| 12.7 mm | 3.5 mm | <b>2.03.402*</b> |

### VARIO 17° gold screw seat

| Height  | Ø      |                 |
|---------|--------|-----------------|
| 11.3 mm | 2.9 mm | <b>2.03.610</b> |

### Implant analog for CAD/CAM

| Length  |                 |
|---------|-----------------|
| 11.4 mm | <b>3.03.088</b> |

### Implant analog

| Length  |                 |
|---------|-----------------|
| 22.0 mm | <b>3.03.062</b> |
| 14.0 mm | <b>3.03.092</b> |

### VARIOmulti straight

| Height | Shoulder height |                 |
|--------|-----------------|-----------------|
| 3.0 mm | 0.8 mm          | <b>4.03.603</b> |
| 4.2 mm | 2.0 mm          | <b>4.03.608</b> |
| 5.2 mm | 3.0 mm          | <b>4.03.613</b> |

### VARIOmulti angled

| Angle | Height | Shoulder height |                 |
|-------|--------|-----------------|-----------------|
| 17°   | 4.3 mm | 2.7 mm          | <b>4.03.683</b> |
| 30°   | 4.4 mm | 3.3 mm          | <b>4.03.688</b> |

### VARIOmulti gold abutment, NOA

| Height      | Ø      |                 |
|-------------|--------|-----------------|
| 4.2/13.5 mm | 4.8 mm | <b>2.03.600</b> |

### VARIOmulti titanium base for CAD/CAM

| Height               | Ø      |                 |
|----------------------|--------|-----------------|
| incl. occlusal screw | 4.5 mm | <b>1.04.850</b> |

### VARIOmulti titanium base for CAD/CAM, customizable length

| Height               | Ø      |                 |
|----------------------|--------|-----------------|
| incl. occlusal screw | 9.0 mm | <b>1.04.851</b> |

### VARIOmulti burn-out cap

| Height  | Ø      | pcs. |                    |
|---------|--------|------|--------------------|
| 13.5 mm | 4.8 mm | 2    | <b>2.03.601 02</b> |

### VARIOmulti analog

| Height  | Ø      |                 |
|---------|--------|-----------------|
| 21.2 mm | 4.8 mm | <b>3.03.800</b> |

### VARIOmulti analog for CAD/CAM

| Height  | Ø      |                 |
|---------|--------|-----------------|
| 13.2 mm | 4.8 mm | <b>3.03.083</b> |

### LOCATOR® abutment

| Height |             |
|--------|-------------|
| 1.0 mm | <b>8792</b> |
| 2.0 mm | <b>8793</b> |
| 3.0 mm | <b>8794</b> |
| 4.0 mm | <b>8795</b> |
| 5.0 mm | <b>8796</b> |
| 6.0 mm | <b>8797</b> |

### Retentive anchor® abutment

| Height |                 |
|--------|-----------------|
| 1.8 mm | <b>4.03.042</b> |
| 3.0 mm | <b>4.03.043</b> |

### RETAIN

| Milling abutment | Height   |                 |
|------------------|----------|-----------------|
|                  | 12.0 mm  | <b>4.03.422</b> |
| Bar abutment     | Height   |                 |
|                  | 5.5 mm   | <b>4.03.382</b> |
| Coping for bar   | Gold     |                 |
|                  | 2.03.335 |                 |
|                  | Titanium | <b>4.03.070</b> |

### LOCATOR®

## Final restoration

### EASY abutment

| Collar       | Cone   | Height |                 |
|--------------|--------|--------|-----------------|
| short 0.5 mm | 4.0 mm | 4.5 mm | <b>4.03.703</b> |
| short 0.5 mm | 6.0 mm | 6.5 mm | <b>4.03.707</b> |
| long 2.0 mm  | 4.0 mm | 6.0 mm | <b>4.03.713</b> |
| long 2.0 mm  | 6.0 mm | 8.0 mm | <b>4.03.717</b> |

### EASY abutment 20°

| Collar           | Height |                 |
|------------------|--------|-----------------|
| 20° short 0.5 mm | 6.5 mm | <b>4.03.011</b> |
| 20° long 3.0 mm  | 9.0 mm | <b>4.03.015</b> |

### EASY abutment set

| Collar       | Cone   | Height |                 |
|--------------|--------|--------|-----------------|
| short 0.5 mm | 4.0 mm | 4.5 mm | <b>1.04.703</b> |
| short 0.5 mm | 6.0 mm | 6.5 mm | <b>1.04.707</b> |
| long 2.0 mm  | 4.0 mm | 6.0 mm | <b>1.04.713</b> |
| long 2.0 mm  | 6.0 mm | 8.0 mm | <b>1.04.717</b> |

#### Set contents:

- EASY abutment
- abutment screw
- EASY impression coping
- EASY analog
- EASY temporary cap
- EASY burn-out cap, for crown, burn-out plastic
- EASY burn-out cap, for bridge, burn-out plastic

## Burn-out cap

### EASY burn-out cap

| Height | Cone   |                  |
|--------|--------|------------------|
| 4.7 mm | 4.0 mm | <b>2.03.723</b>  |
| 6.7 mm | 6.0 mm | <b>2.03.727</b>  |
| 4.7 mm | 4.0 mm | <b>2.03.733*</b> |
| 6.7 mm | 6.0 mm | <b>2.03.737*</b> |

## Analog

### EASY analog

| Cone   |                 |
|--------|-----------------|
| 4.0 mm | <b>3.03.703</b> |
| 6.0 mm | <b>3.03.707</b> |

### Implant analog

| Length  |                 |
|---------|-----------------|
| 22.0 mm | <b>3.03.063</b> |
| 15.0 mm | <b>3.03.093</b> |

### Implant analog for CAD/CAM

| Length  |                 |
|---------|-----------------|
| 11.4 mm | <b>3.03.089</b> |

## VARIOflex set

| Abutment screw, burn-out cap included |                  |
|---------------------------------------|------------------|
| Height                                |                  |
| 12.0 mm                               | <b>1.04.834</b>  |
| 12.0 mm                               | <b>1.04.839*</b> |

## Titanium Base CAD/CAM Set

| Abutment screw included |                  |
|-------------------------|------------------|
| Height                  |                  |
| 5.2 mm                  | <b>1.04.754</b>  |
| 5.2 mm                  | <b>1.04.764*</b> |

## Milling abutment for CAD/CAM Type II

| Abutment screw included |                 |
|-------------------------|-----------------|
| Length Ø                |                 |
| 15.0 mm 11.5 mm         | <b>1.04.409</b> |

## VARIOeco burn-out cap

| Height  |                 |
|---------|-----------------|
| 12.0 mm | <b>2.03.794</b> |

## VARIOflex burn-out cap

| Height  |                 |
|---------|-----------------|
| 11.5 mm | <b>2.03.844</b> |

## Implant analog

| Length  |                 |
|---------|-----------------|
| 22.0 mm | <b>3.03.063</b> |
| 15.0 mm | <b>3.03.093</b> |

## Implant analog for CAD/CAM

| Length  |                 |
|---------|-----------------|
| 11.4 mm | <b>3.03.089</b> |

## VARIO gold abutment, NOA

| Height  | Cone   |                  |
|---------|--------|------------------|
| 12.7 mm | 3.5 mm | <b>2.03.413</b>  |
| 12.7 mm | 3.5 mm | <b>2.03.403*</b> |

## Implant analog for CAD/CAM

| Length  |                 |
|---------|-----------------|
| 11.4 mm | <b>3.03.089</b> |

## Implant analog

| Length  |                 |
|---------|-----------------|
| 22.0 mm | <b>3.03.063</b> |
| 15.0 mm | <b>3.03.093</b> |

## VARIOmulti straight

| Height | Shoulder height |                 |
|--------|-----------------|-----------------|
| 3.7 mm | 1.5 mm          | <b>4.03.604</b> |

## VARIOmulti angled

# Temporary restoration

Implant level: VARIOtemp offers a solid base for the provisional restoration of Thommen implants at implant level. The customizable gingiva former (art. no. 4.03.570-574), titanium/plastic (see page 15) can also be used for temporary restorations of single teeth at implant level.

Abutment level: The temporary caps of the EASY (see page 44, 46, 48) and VARIOmulti (see page 39) abutment lines offer the possibility to fabricate a provisional cap already on the final abutment.

## SPI®VARIOtemp for temporary restorations [www.ifu-tm.com/THM61121](http://www.ifu-tm.com/THM61121)

## VARIO abutment 17° set

| Height | Shoulder height |        |          |          |          |          |  |                                                                                             |
|--------|-----------------|--------|----------|----------|----------|----------|--|---------------------------------------------------------------------------------------------|
| 5.6 mm | 0.5 mm          | Type A | 1.03.160 | 1.03.161 | 1.03.162 | 1.03.163 |  | Typ A  |
|        |                 | Type B | 1.03.180 | 1.03.181 | 1.03.182 | 1.03.183 |  | Typ B  |

- Set contents:
- 1 VARIO abutment 17° (titanium)
  - 1 VARIO 17° gold screw seat
  - 1 occlusal screw
  - 1 abutment screw

VARIO abutments 17° have a Type A [0°] or B [30°] hexagon. They can therefore be aligned in 30° increments.

## VARIO 17° gold screw seat, NOA/burn-out plastic (fits all platform sizes)

| Height      | Ø      |          |                                                                                       |

## Guiding cylinder for ELEMENT and CONTACT implants, stainless steel

|  | Length |            |          |          |          |          |          |
|-------------------------------------------------------------------------------------|--------|------------|----------|----------|----------|----------|----------|
|                                                                                     |        | External Ø | 3.7 mm   | 4.4 mm   | 4.4 mm   | 5.2 mm   | 6.2 mm   |
|                                                                                     | 3.0 mm | ELEMENT    | 3.03.308 | 3.03.307 | 3.03.309 | 3.03.310 | 3.03.313 |
|                                                                                     | 3.0 mm | CONTACT    | 3.03.308 | 3.03.307 | 3.03.309 | 3.03.310 |          |

Use abutment screws art. nos. 4.03.500 (PF B 3.5 mm) and 4.03.501 (PF 4.0–6.0) to attach guiding cylinders on the implant. Abutment screw is not included in the delivery.

**\* Important** Only use explantation drills 31.0 mm in length for the following implant lengths:

|                |             |
|----------------|-------------|
| ELEMENT        | 6.5–12.5 mm |
| CONTACT        | 6.5–12.5 mm |
| CONTACT PF 6.0 | 9.5–11.0 mm |

**Important** Explantation drills for ONETIME and DIRECT Implants are still available. To purchase, please contact your country representative.

## THOMMEN IMPLANT SYSTEM

|                                                                                     |                                                                                                                                    |
|-------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|
|    | Manufacturer: Thommen Medical AG<br>Neckarsulmstrasse 28<br>2540 Grenchen, Switzerland<br>www.thommenmedical.com                   |
|    | Batch code                                                                                                                         |
|    | Use by date                                                                                                                        |
|    | Date of manufacture                                                                                                                |
|    | Sterilized using irradiation                                                                                                       |
|    | Simple sterile barrier system                                                                                                      |
|    | Simple sterile barrier system with protective packaging on the inside                                                              |
|    | No more than 20 processing cycles                                                                                                  |
|    | EU authorized representative                                                                                                       |
|    | Temperature limitation                                                                                                             |
|    | Do not re-use                                                                                                                      |
|    | Non-sterile                                                                                                                        |
|    | Caution                                                                                                                            |
|    | Article number                                                                                                                     |
|  | Conformity mark according to Directive MDD 93/42/EEC or Regulation (EU) 2017/745 MDR (see corresponding declaration of conformity) |
|  | Consult instructions for use                                                                                                       |
|  | Do not re-sterilize                                                                                                                |
|  | Do not use if package is damaged                                                                                                   |
|  | Atmospheric pressure limitation                                                                                                    |
|  | Manufacturer                                                                                                                       |
|  | Keep away from sunlight                                                                                                            |
|  | May only be sold to and prescribed by physicians (USA)                                                                             |
|  | Medical device                                                                                                                     |
|  | Single product code                                                                                                                |

### COLOR WARNING STICKER

Application was changed – follow the directions in the corresponding instructions for use.

#### NEW HANDLING

New design – the application has not been changed.

#### NEW DESIGN

**PRODUCT INFORMATION** The information in this document describes the application of the Thommen Medical implant system. This information is available in electronic form online at: [www.ifu-tm.com](http://www.ifu-tm.com). The responsible country representative or distributor for Thommen Medical AG is available to provide technical advice.

**COLOR CODE** Each implant platform diameter has a color code, which can be found on all implant packagings, on the impression items and on most diameter-specific instruments.

### TRACEABILITY

In order to ensure the traceability of the implantable products as well as the manufacturer, product type and product dimensions also for a later prosthetic re-restoration, each product package

comes with three patient labels. These labels should be used in the practice for documentation and for the implant passport.

|        |   |        |
|--------|---|--------|
| Brown  | = | PF 3.0 |
| Yellow | = | PF 3.5 |
| Green  | = | PF 4.0 |
| Blue   | = | PF 4.5 |
| Grey   | = | PF 5.0 |
| Purple | = | PF 6.0 |

**AVAILABILITY** Not all of the Thommen Medical products mentioned in these instructions for use are available in all countries. The responsible country representative or distributor for Thommen Medical AG can provide information about availability of Thommen Medical products for the country in question.

**GENERAL RESTRICTIONS OF USE** Reconstructions with cantilevers to individual implants are not recommended. Individual restorations with angled abutments should not be used in regions with high mechanical stress. For implants with a small diameter (PF 3.0 and 3.5), the prosthetic restoration should be constructed in such a way that a large bending moment does not occur.

**CONTRAINDICATION** The Thommen Medical products may not be used on patients who are known to have allergies to the corresponding materials.

**POSSIBLE COMPLICATIONS** A stressed loading of the implant or abutment over and above its functional capacity can lead to excessive bone loss or fracture of the implant or restoration. The clinician must supervise the occlusion and functional loading of the prosthetic supraconstruction very carefully.

**SIDE EFFECTS** The patient should be informed about the possible side effects, interactions, precautionary measures and complications associated with Thommen Medical products.

Potential complications can occur immediately after insertion of dental implants:

Temporary symptoms: swelling, difficulties with speaking, gum inflammations, pain.

Longer lasting symptoms: chronic pain connected with the dental implant, localized or systemic infections, dysesthesia, loss of alveolar ridge (upper and lower jaw), orolabial or oronasal fistulas, irreversible damage to neighboring teeth, esthetic problems, nerve damage, hyperplasia. Possible additional side effect: Implant loss.

**WARNINGS** All Thommen Medical products that come into effect inside the oral cavity must be protected against aspiration. Thommen Medical products have not been tested for safety and compatibility in an MR environment. Thommen Medical products have not been tested for heating or migration in the MR environment. The safety of Thommen Medical products in the MR environment is unknown. Magnetic resonance tomographic examinations of patients, who have been treated with Thommen Medical products, may result in patient injuries.

**RESPONSIBILITY/LIABILITY** As a part of an overall scheme, Thommen Medical products may be used only with the related original components and instruments in accordance with the instructions for use provided by Thommen Medical. The use of non-system parts may compromise the performance of Thommen Medical products and lead to failures. Users must have appropriate knowledge and information about the handling of Thommen Medical products in order to use the products safely and correctly. The user is obliged to use the Thommen Medical products according to the instructions for use and to check whether the product is suitable for the individual patient situation. The use of Thommen Medical products is the responsibility of the user, as such, beyond the control of Thommen Medical AG. We refuse to accept any responsibility or liability for any damage due to incorrect utilization of the product. Products labeled "Do not re-use" may not be refurbished and/or reused. The refurbishment and/or reuse of these products can affect their function (e.g. fitting and/or cutting properties) as well as their safe use (e.g. risk of infection, disease

transmission, fading of the laser or color marks, corrosion). Detailed information about the possible consequences, which may result from incorrect use, is available from the responsible country representative or distributor of Thommen Medical AG. All serious incidents which have occurred in connection with the product must be reported to the manufacturer and the user's local competent authority.

**GUARANTEE** The comprehensive guarantees can be found in the country-specific guarantee leaflets.

**TRANSPORT AND STORAGE** Please note the specifications on the labels and instructions for use regarding transportation, storage and handling. If the packaging is damaged, the products must not be used; a visual inspection is necessary. Under no circumstances may Thommen Medical products be used beyond the expiry date, as proper functioning or sterility of sterile packaged products cannot be guaranteed by the manufacturer.

**APPLICATION** The following descriptions are not intended as comprehensive for the immediate use of the Thommen Medical Implant System. Training by a specialist experienced in the use of this system is recommended.

**GUARANTEE OF STERILITY** In general, products of the Thommen Implant System supplied in sterile packaging must not be re-sterilized. Sterile-packed products, whose packaging is damaged, must not be used under any circumstances. Sterile-supplied products, which have not been used for the surgical operation, whose packaging has been opened are considered as having been used and must not be used thereafter. In the event of resterilization, proper function and the sterility cannot be guaranteed by the manufacturer. The products intended for single use must never be reprocessed, sterilized or reused and must be disposed of safely and properly after use in compliance with all applicable legal and regulatory requirements. Reusable products must be reprocessed according to the instructions for use and, if used on patients, sterilized. They must be checked for their integrity before each use. Any damage (for example, scratches, cracks, nicks, dents), as well as bent parts, means that they must not be used any longer. The number of reprocessing cycles is limited and must be monitored. If the number of cycles is exceeded, proper function and sterility of the product are not guaranteed by the manufacturer anymore.

**DISPOSAL** In the case of cutting products, there is always a risk of injury, therefore the products must be disposed of safely and properly after use, observing all applicable legal and regulatory requirements. For products and their accessories, which have been used on a patient, there is a risk of an infection. Our products are designed and produced so that they can be disposed of safely and correctly after use in compliance with all valid legal and regulatory requirements.
