SYMPOSIUM
HYALURONIC ACID IN DENTAL SURGERY 19-20 APRIL 2024

HOTEL EUROSTARS SITGES (BARCELONA), SPAIN

PLENARY SESSIONS

08:45	Welcome – Prof A. Sculean
09:00	Non-surgical treatment for periodontitis/periimplantitis. State-of-the-art and novel concepts. Prof A. Friedmann, Prof A. Stavropoulos
09:50	Discussion
10:00	Break
10:30	Regenerative and esthetic periodontal surgery. State-of-the-art and novel concepts. Prof A. Pilloni, Prof D. Božić
11:20	Guided Bone Regeneration treatment. State-of-the-art and novel concepts. Prof S. Fickl, Dr F. Kauffmann
12:05	Discussion
12:30	Lunch

HANDS-ON

15:00 – 17:30	Novel surgical concept for periimplantitis and periodontitis – Prof A. Stavropoulos	Minimize surgical needs for peri-implantitis/peri-dontitis – Prof A. Friedmann	Combined approach of xenograft and xHyA gel in GTR – Prof D. Božić	Innovative approaches in the management of periodontal and peri-implant infections and soft tissue reconstructions – Prof A. Sculean	Guided Bone Regeneration – clinically relevant tips and tricks – Prof S. Fickl, Dr F. Kauffmann
----------------------	---	--	--	--	---

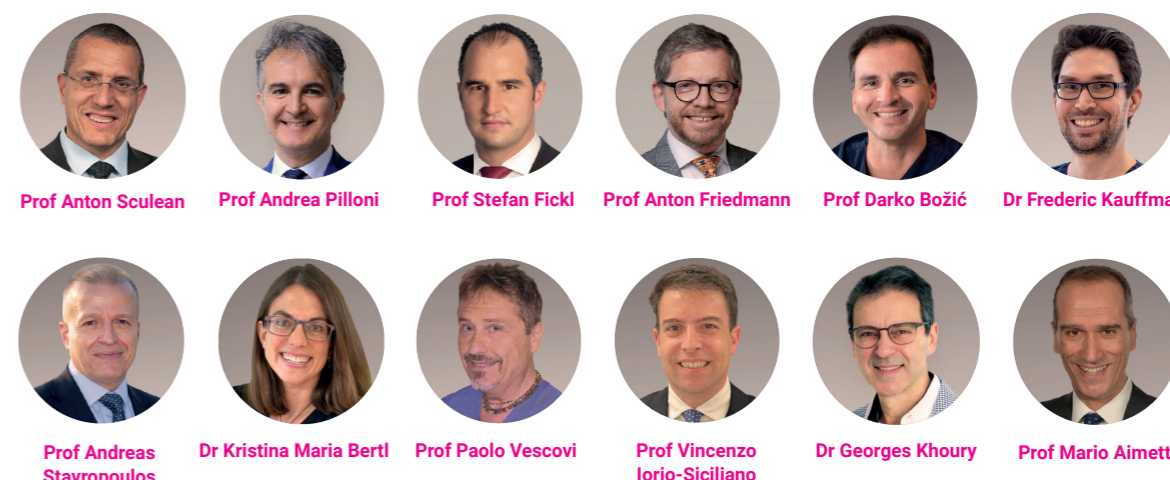

CELEBRATION

19:30	 10th Anniversary
--------------	---

ROUND TABLE

SELECTIVE LECTURES

13:30 – 14:00	HyA in non-surgical periodontal treatment	Hybrid Regeneration of severe atrophies associated to HyA	HyA in regenerative periodontal therapy	Non-surgical treatment for peri-implantitis and mucositis	Dental implants in patients under bisphosphonate and antiresorptive therapy: the use of cross-linked hyaluronic acid gel	Combined approach with xenograft and xHyA gel
14:05 – 14:35	HyA in non-surgical periodontal treatment	Hybrid Regeneration of severe atrophies associated to HyA	HyA properties in dental treatments (potential and limitations)		Dental implants in patients under bisphosphonate and antiresorptive therapy: the use of cross-linked hyaluronic acid gel	Combined approach with xenograft and xHyA gel

SYMPOSIUM
HYALURONIC ACID IN DENTAL SURGERY 19-20 APRIL 2024

HOTEL EUROSTARS SITGES (BARCELONA), SPAIN

ROUND TABLE		SELECTIVE LECTURES			
09:00 – 09:30	Hyaluronic acid in periimplantitis	Management of bone and soft tissue in post-extraction implants in esthetic sites	Hyaluronic acid: biologic background and histologic evidence	How to minimize surgeries for periodontal / peri-implant infections	Soft tissue augmentation around teeth and implants
09:35 – 10:05	Hyaluronic acid in periimplantitis	Management of bone and soft tissue in post-extraction implants in esthetic sites	Hyaluronic acid: biologic background and histologic evidence	How to minimize surgeries for periodontal / peri-implant infections	Soft tissue augmentation around teeth and implants
10:05	Break				
10:30 – 11:00	Communication and individual prophylaxis: Keys to success	Bone augmentation techniques for highly atrophic crests	CLEAN&SEAL® – biologic background and clinical evidence	Different xHyA used in dentistry. Includes protocol for diabetes and osteonecrosis	PRF vs. HyA in Guided Bone Regeneration
11:05 – 11:35	Communication and individual prophylaxis: Keys to success	Bone augmentation techniques for highly atrophic crests	CLEAN&SEAL® – biologic background and clinical evidence	Different xHyA used in dentistry. Includes protocol for diabetes and osteonecrosis	PRF vs. HyA in Guided Bone Regeneration
11:45	Discussion and conclusions – Prof Anton Sculean, Prof Andrea Piloni, Prof Stefan Fickl, Prof Anton Friedmann				
12:45	Lunch				

HANDS-ON					
14:00 – 16:30	Flap designs for predictable mgt of infrabony and furcation defects – Prof A. Piloni	Bone shell technique – are allogeneic plates an alternative to the autologous gold standard? – Dr J. Tunkel	Tooth transplantation and HyA: a comprehensive workshop – Dr G. de Quincey	Peri-implantitis and periodontitis treatment with A ² H and xHyA – Dr E. Ramanauskaitė, Prof V. Iorio-Siciliano, Dr M. Ferramosca	Surgical management of periimplantitis – Prof A. Stavropoulos
