Invitation

Dear Business Partners,

We are pleased to invite you to attend a two-day conference on "Implant Therapy - The Integrated Treatment Plan", which will take place at the Hotel Sen in Senohraby, near Prague, on 4.4.2025. Additional workshops will be held on 5.4.2025.

The keynote speaker for this event is Professor Mauro Merli, a distinguished Professor of periodontology at the *Marche Polytechnic University*, president of *Clinica Merli*, and scientific director of *Accademia Dentofacciale Merli*. He is an active member of the *Italian Society of Periodontology (SIdP)* and the *Italian Society of Prosthetic Dentistry and Oral Rehabilitation (SIPRO)*. Professor Merli has held various prestigious positions within SIdP, including Secretary, Treasurer, Vice-President, and President; and he is the elected President of SIPRO for 2025. His expertise is internationally recognized, and he is a sought-after lecturer and respected author.

We believe this prestigious event will provide you with a unique opportunity to deepen your knowledge, exchange experiences, and expand your professional network within the industry.

IMMEDIATE DENTOALVEOLAR RESTORATION

5.4.2025

Workshop I. - MDDr. Michal Novosad

Implant placement has become a common part of the daily routine for implantologists. The course focuses on the IDR (Immediate Dentoalveolar Restoration) technique, which is based on a one-step protocol designed by José Carlos Martins da Rosa. This protocol utilizes autogenous bone grafts harvested from the maxillary tuberosity to reconstruct bone defects during implant placement.

MDDr. Michal Novosad

graduated in dentistry from the Faculty of Medicine of Palacký University in Olomouc in 2011. From 2011 to 2012, he worked as a Senior House Officer at the Royal Sussex County Hospital in Brighton and the Eastbourne District General Hospital in the UK, within the Department of Maxillofacial Surgery. Since 2012, he has been practicing at the private dental clinic STOMMA s.r.o. in Břeclav, specializing in dentoalveolar surgery and implantology.

He is a co-author of several articles and has delivered over 30 lectures both in the Czech Republic and abroad. He is part of the International Interdisciplinary Dental Study Group and has authored courses on tooth autotransplantation, as well as co-authored courses on collaboration between orthodontists and dentoalveolar surgeons.

MUDr. Novosad completed the Advanced Surgical Master Curriculum in Regenerative Implant Dentistry, led by Dr. Istvan Urban, under the auspices of the University of Szeged in Budapest. He is a certified member of the Czech Academy of Dental Aesthetics and a member of the Czech Stomatological Society, ITI, and the Implantology Club of the Czech Republic.

9:00 AM

THEORETICAL PART

- introduction to Immediate Implantation
- defect diagnosis and planning atraumatic extraction
- intact vs. compromise bunk
- tuber maxillae

10:30 AM
Coffee
Break

1:00 PM
Lunch

PRACTICAL PART ON PLASTIC MODEL

- removal of the tuber maxillae and its modification
- implant placement
- reconstruction of a bone defect with a cortico-spongiose graft from tuber maxillae including a connective tissue graft
- SSA abutment

4:00 PM
Coffee
Break

6:00 PM

Sinus Lift Procedure

Full-arch Implant Treatment Planning Based on Proper Occlusion Principles

5.4.2025

Workshop II.

Lek. dent. Lukasz Bańczyk
Dr n. med. Daniel Ciapiński

Dr. Lukasz Bańczyk

Head of Dentistry at *Alfamedica Medical Center*, graduated from the Faculty of Dentistry at the Medical University of Silesia in 2008. He is an active member of the Polish Society of *Cranio-Maxillofacial Surgery*, *Dental Surgery*, and *Implantology*. He regularly participates in international training (Germany, Sweden, Austria, Switzerland, Italy) in *implantology*, *bone regeneration*, and *prosthetics*.
